

myDESIGN

LAPPSET®

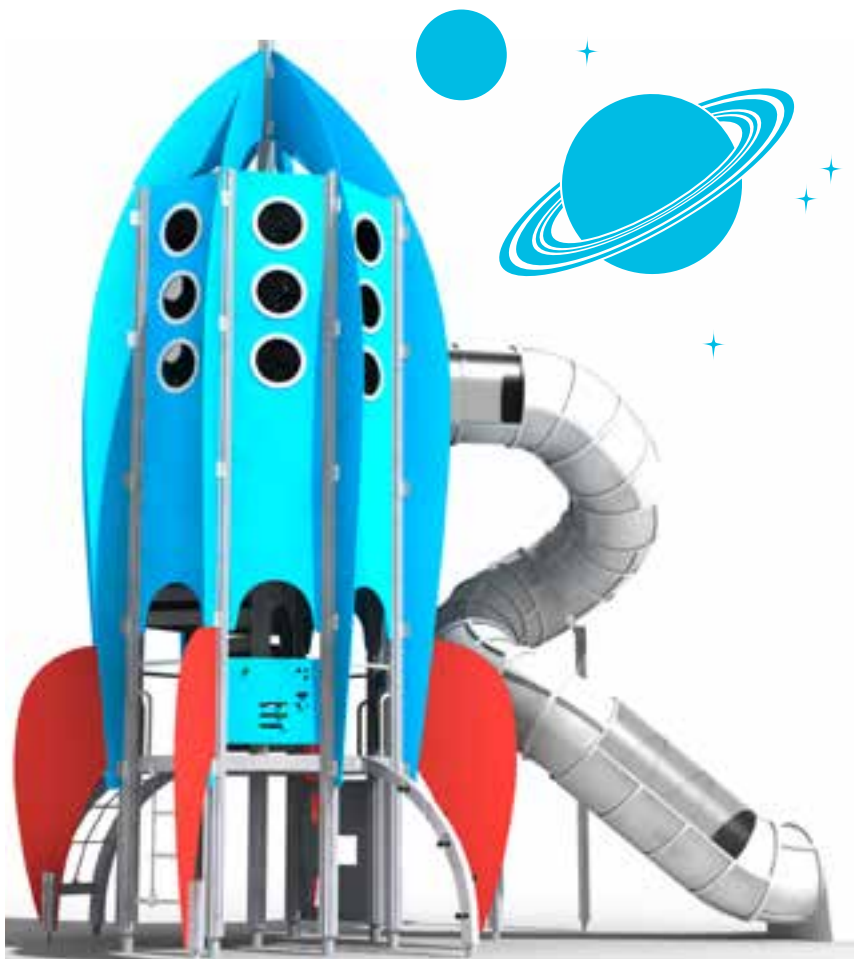

We bring your ideas to life

Lappset's MyDesign! service gives you a chance to make your playground or park unique or to bring out your corporate identity.

MyDesign! transforms according to your needs. You can change individual elements in our standard products or design a completely different looking playground, adorn the equipment with logos or even create an entire theme park.

Cute and touching fairytale characters, themes of your choice or children's favourites bring added value that money can't buy.
