

Interactive – A New Way To Play

At Lappset, we understand that digitalisation is not just a trend but a means to genuinely improve the playground and outdoor sports experience for all users. By integrating user-friendly digital elements, we're able to create playces that are not only more accessible and inclusive but also, foremost, fun.

We're redeveloping play experiences by creating innovative products that combine gaming with outdoor activities. Our playsets are of the highest quality and are designed to be interactive and inclusive. They include options such as Sona, a dance and play arch; Toro, a dynamic sports arena; Fono's DJ booth; Memo's educational play pillars; and Sutu's interactive ball wall, which can help improve your soccer skills. And new to our collection is Luna, the little sister of Sona for indoor dance and play. Each piece of equipment is unique and offers experiences that are perfect for any target group.

The gaming world offers imagination, learning, fun, variety, the excitement of reaching the next level, and the possibility of adapting levels to an individual player. The physical world brings physical activity, social interaction, community involvement, and the rewarding feeling of being outdoors. By combining both, we unlock a whole new level of fun, the best of both worlds! We can truly activate all.

At Lappset, our mission is to improve the world's well-being by creating inspiring playces that stretch the imagination, foster learning, respect the environment and encourage activity for all mankind.

Customize Your Interactive Playset

Let your imagination run wild with Lappset Interactive - the perfect playground solution for creating something truly unique! Do you know what's the best about our customisation? We can customize the product's look and feel as well as its software by changing the games, voice samples, and more. Our customizable equipment gives you complete design freedom, from choosing your colour palette and flooring to adding logos or illustrations. And that's not all: just get in touch at sales@lappset.com, and we'll tell you how our products can really make a statement in any playground setting!

Themed Sona Interactive dance and play arch

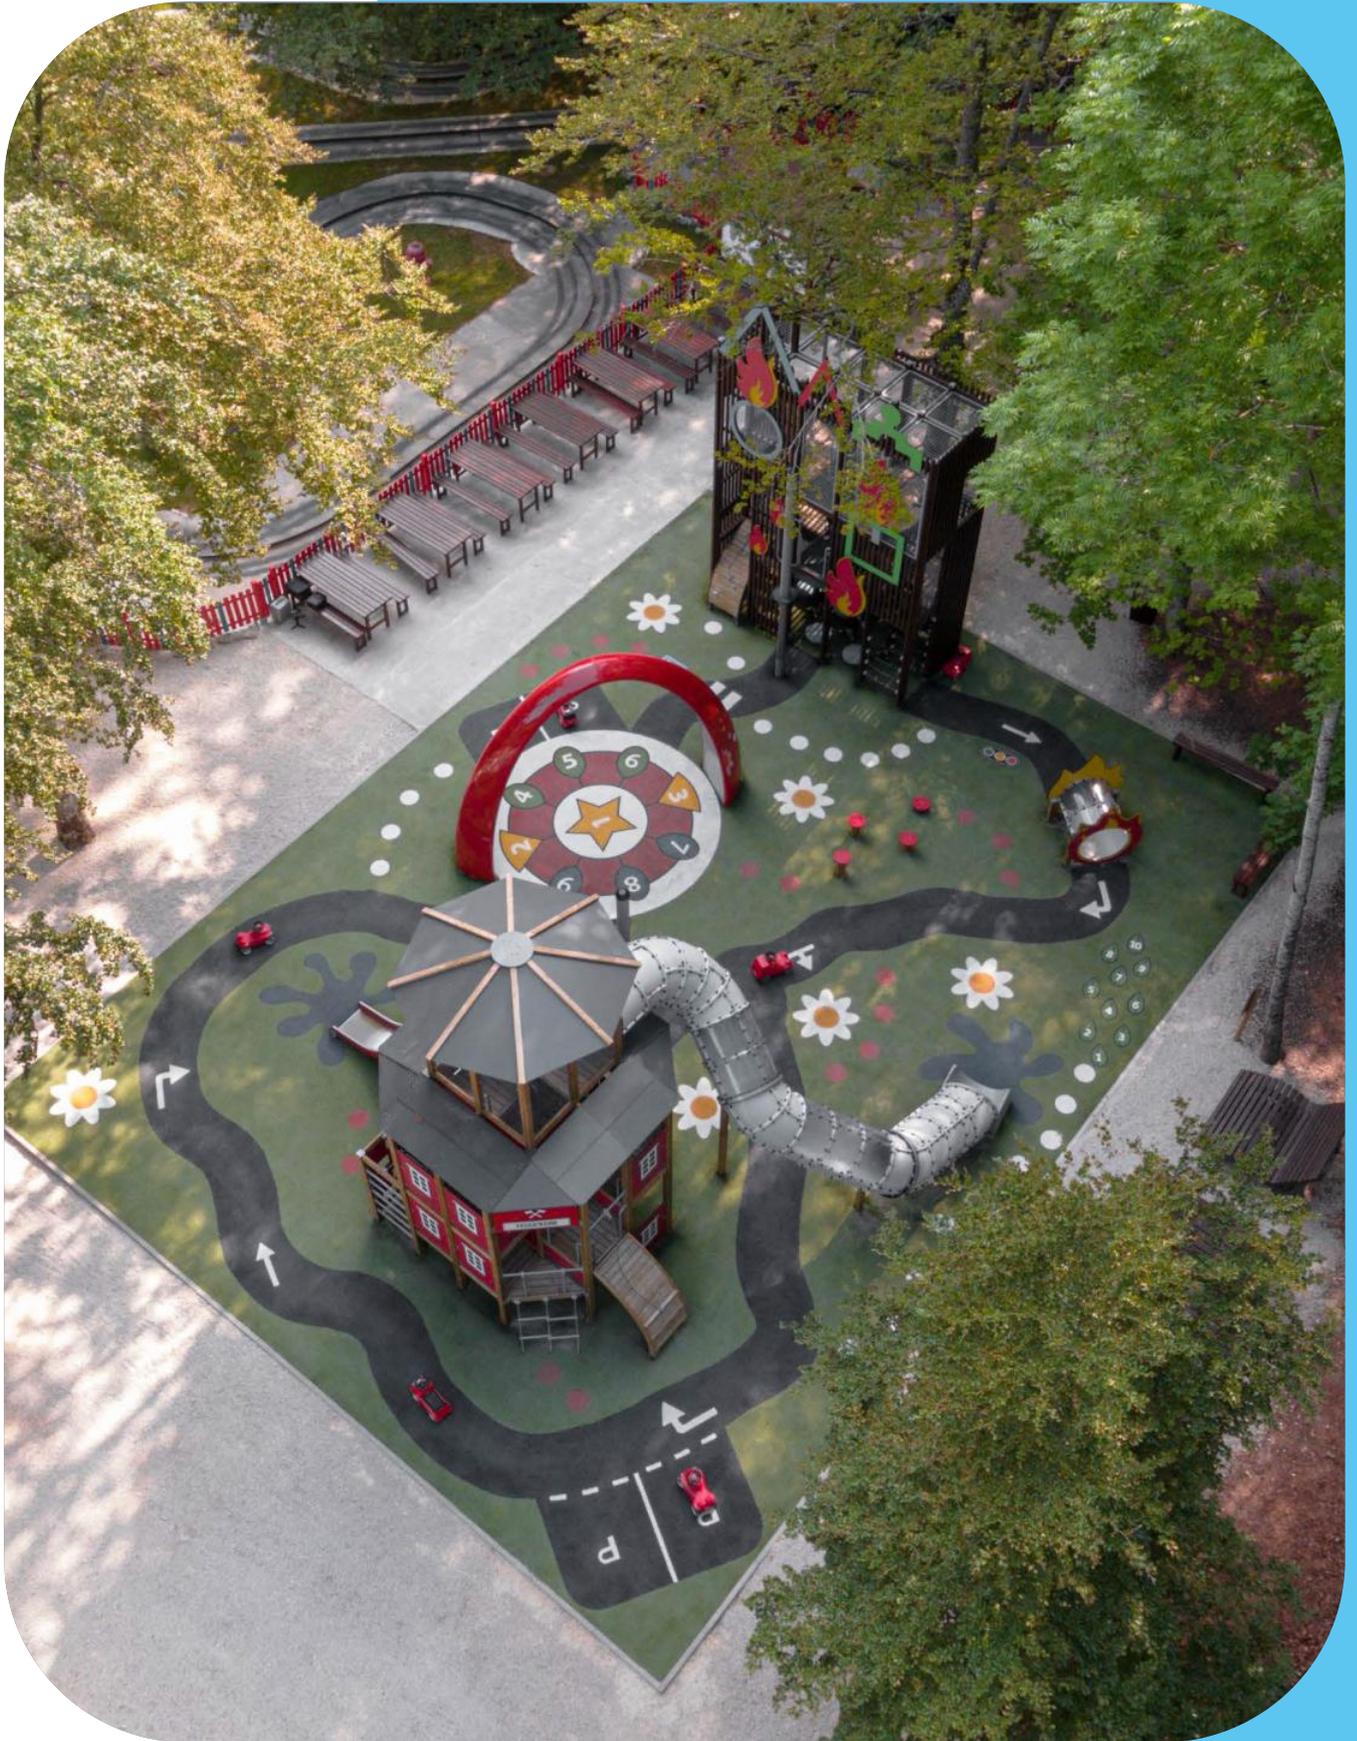

Example: This unique Lappset Memo with custom music game and custom floor design was designed for the non-profit organisation Meer Muziek in de Klas (More Music in the Classroom)

Customize Your Games

Our dedicated team is passionate about crafting tailored solutions that cater to your players' unique desires and requirements. Picture a playground that resonates perfectly with your audience, offering an experience they won't find anywhere else.

Imagine a personalised quiz in your Memo or a tailored playlist for the Sona; the possibilities are endless and available for all the interactive playsets. We understand that each project is as distinct as the players it serves, and that's why we're committed to creating spaces that stand out from the rest. Reach out to us today at

sales@lappset.com and let's start the journey towards your unique interactive playground.

TrauLAND playground is themed entirely in a fire brigade style. The playground features a Sona with custom fire brigade game, Vertical Maze, and a very cool fire station.

Lappset Sona has a barrier-free floor, ensuring easy access for individuals with mobility challenges.

Lappset Sona Interactive dance and play arch

The Sona is designed for an inclusive and positive gaming experience for a wide audience. It allows everyone to play together, responding to movement underneath it and offering a variety of games at the press of a button. Through an online platform, owners can download different games, including cognitive challenges and fitness activities. Its durable steel frame ensures it can be used outdoors for years. The Sona is suitable for communities, public parks, and elderly care homes, supporting interactive play for 10 or more players of all ages.

Other options

290140

Custom Sona colour addition

This addition allows changing the default Lappset Sona colour to a custom colour. It changes the colour of the polyester caps. It is available in most RAL colours.

290141

Striped Sona caps addition

This addition allows changing the default Lappset Sona colour of the polyester caps into a striped pattern. Good examples are rainbow stripes or using your themed striped colours.

Other options

290142

Adapter for an element on top of Sona

This adapter set allows the installation of a theming element on top of the Lappset Sona.

Power Play with Green Energy

The green energy solution is designed exclusively for powering Lappset Interactive playsets, eliminating the need for expensive and time-consuming mains power installations. Enjoy uninterrupted play all year round while reducing energy costs and your environmental footprint.

290900

Lappset Solar

The Lappset Solar colour scheme matches the product colour that it is powering.

290901

Lappset Solar in marine grade

Providing extra durability for harsher environments.

Learn more about the Lappset Solar and the installation options on page 70.

Lappset Sona - Janakkala, Finland

Lappset Sona

Installation options Sona

290190

Sona deep mount kit, concrete needed

This Sona deep mount Kit provides L-anchors with a mould to position them. This is the most common Sona installation type used with concrete poured on-site.

290191

Sona deep mount kit, no concrete needed

This Sona deep mount Kit provides two large metal anchors to dig into the ground. Concrete does not need to be poured on-site. This is a great alternative when installation needs to be completed in a day, but it is more expensive in material, considering the price of the large metal anchors compared to the small L anchors to be used with concrete.

290192

Sona surface mount kit

This Sona surface mount kit allows bolting down Lappset Sona to the floor. It is suitable for indoor use only, preferably in combination with wet-pour rubber surfacing.

290193

Sona exhibition mount kit

The Sona Exhibition mount kit provides two metal plates for temporary installation on a hard and flat exhibition surface.

Choose an installation type that fits your situation best. Products can be installed in various situations, from outdoors in grassy, sandy, rocky, or tiled or concrete surfaces to indoor areas. Available standard options are:

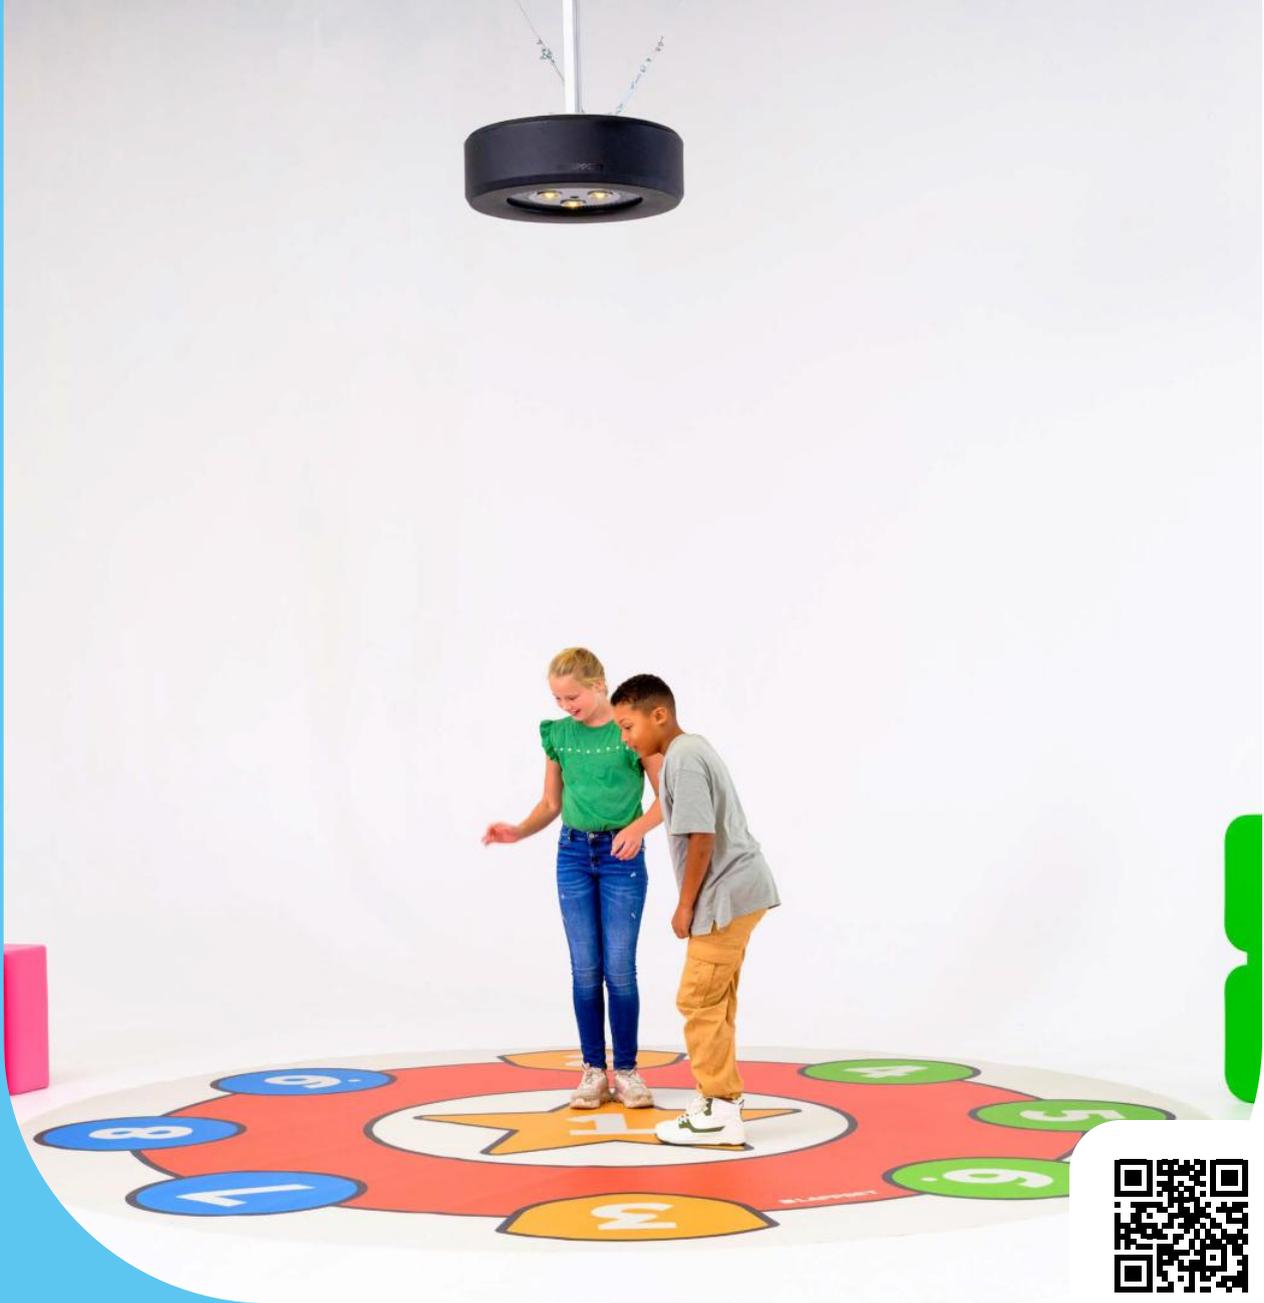

- Deep mount
- Surface mount
- Exhibition mount

Do you prefer another installation type? No worries; we are happy to provide you with a custom mount installation solution that best suits your location.

Lappset Sona - Wokingham, United Kingdom

Lappset Luna uses overhead sensors to detect players, automatically starting a game as you step into the play area.

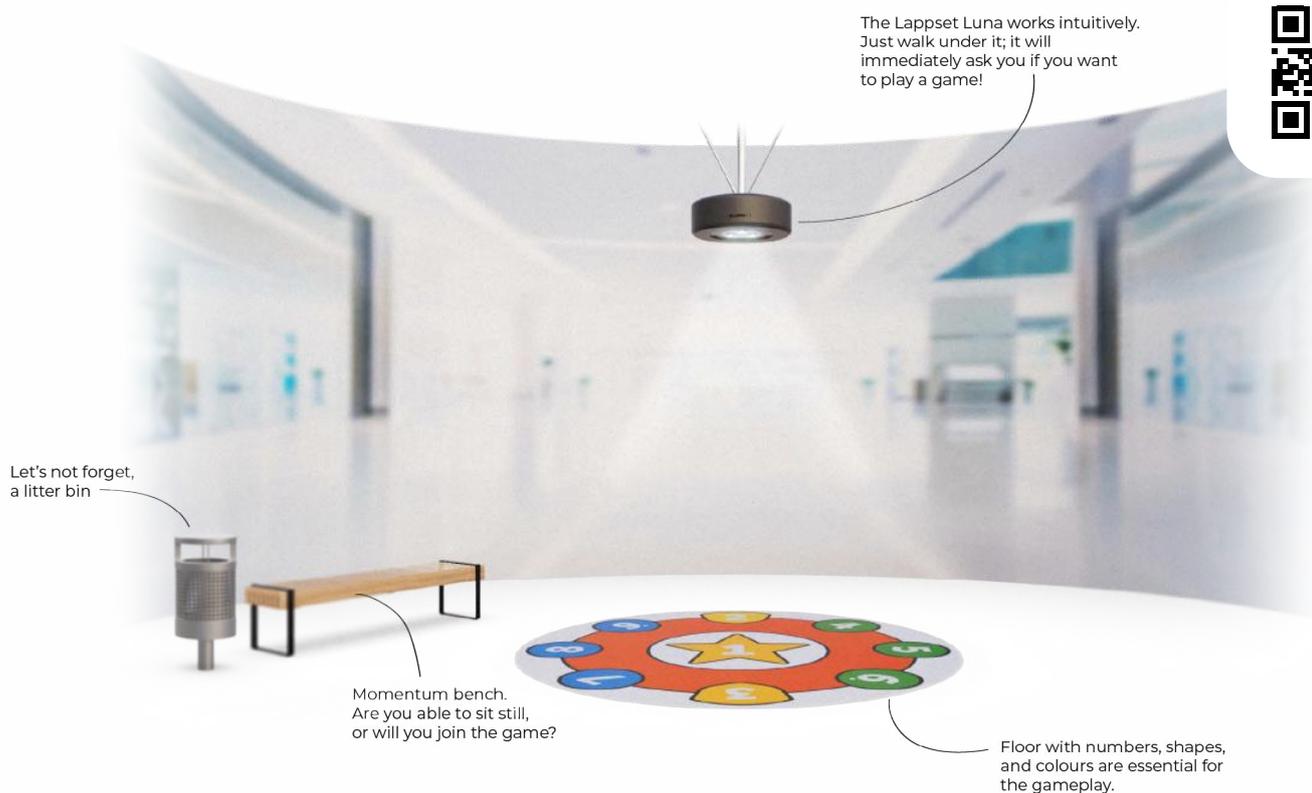

Lappset Luna Interactive dance and play spot

The Luna is the younger sibling of Lappset Sona. It is an inclusive, high-tech playset that brings fun to any indoor space. Luna seamlessly integrates into any environment. Equipped with a movement detection sensor, Luna reacts to every move, fostering collaboration as players dance, play, and explore together. Perfect for play centres, YMCAs, malls, leisure centres, hotels, restaurants, and schools, Luna is fully accessible and supports over ten players at once.

Lappset Luna

Installation options

Lappset Luna can be installed on almost any ceiling, and we can provide the necessary adaptors accordingly. Just pick the pieces needed to ensure Lappset Luna is installed at the proper operational height.

290290 Luna ceiling mount

This basic Luna bracket is always needed to install Luna.

290291 Luna adapter for H or I beam mount

This bracket is needed when installing Lappset Luna on an H or I beam building construction.

290292 Bracket extension starting section

A bracket extension start section of 0,5 m (1.64 ft) in length. Please check the table in the installation manual for the number of pieces and adapter elements needed to ensure Luna's correct operational height.

290293 Bracket extension piece

An extension piece for the start section 290292 of 0,5 m (1.64 ft) in length. Please check the table in the installation manual for the number of pieces and adapter elements needed to ensure Luna's correct operational height.

290294 Stabilization Cable Set for 290290

The Stabilization cable set to use with bracket 290290 is recommended for use with three or more bracket extensions or with less rigid constructions. Please check the table in the installation manual for the number of pieces and adapter elements needed to ensure Luna's correct operational height.

290295 Stabilization Cable Set for 290291

The Stabilization cable set to use with bracket 290291 is recommended for use with three or more bracket extensions or with less rigid constructions. Please check the table in the installation manual for the number of pieces and adapter elements needed to ensure Luna's correct operational height.

Luna doesn't project images on the floor like projector-based systems. Instead, it relies on motion detection and sound, creating face-to-face interaction

Lappset Memo reacts based on player actions, creating back-and-forth interaction.

Lappset Memo Interactive play pillars

The Memo is equipped with seven pillars, each featuring a 360° LED touch screen, Memo offers a dynamic and engaging experience from all angles. Designed to engage and educate, Memo's name reflects its dual focus on memory and movement, essential for effective learning. The games foster crucial social skills like teamwork while promoting active, healthy habits through constant movement. The games support the development of 21st-century skills, STEM education, and active play. Memo is the ideal choice for schools, kindergartens, family entertainment centres, retail environments, and municipalities.

Cap options

290540

Memo premium brown caps addition

This addition allows changing the default Lappset Memo wooden caps from Natural Tone to Premium Brown. It changes the top and side caps for all seven posts. The caps are made of pinewood from Finnish Lapland, treated to last outdoors. **This addition is not compatible with Memos produced before 2020.**

290545

Memo green plastic caps addition

This addition allows changing the default Lappset Memo wooden caps to plastic green caps. It changes the top and side caps for all seven posts. **Note that plastic caps are a less sustainable choice.**

290550

Memo 100% recycled plastic caps addition

This addition allows changing the default Lappset Memo wooden caps to caps made of 100% recycled plastic waste. The caps are black. It changes the top and side caps for all seven posts.

290555

Memo other colour caps addition

This addition allows changing the default Lappset Memo wooden caps to plastic caps in one of the colours available. It changes the top and side caps for all seven posts. Contact us for the various RAL options. **Note that plastic caps are a less sustainable choice.**

Disclaimer: colours are matched as closely as possible to RAL standards; however, they are approximate. In practise, there may be deviations from these RAL standards.

Lappset Memo

Power Play with Green Energy

The green energy solution is designed exclusively for powering Lappset Interactive playsets, eliminating the need for expensive and time-consuming mains power installations. Enjoy uninterrupted play all year round while reducing energy costs and your environmental footprint.

290900 Lappset Solar

The Lappset Solar colour scheme matches the product colour that it is powering.

290901 Lappset Solar in marine grade

Providing extra durability for harsher environments.

Learn more about the Lappset Solar and the installation options on page 70.

Installation options Memo

290590 Memo deep mount kit, concrete needed

This Memo deep mount kit provides seven deep mount ground anchors to install the Lappset Memo posts. This is the most common Memo installation type used with concrete poured on-site. Protective tubes Ø 40mm are provided to connect the anchors underground to conduct the cables. It is a plug-and-play installation.

290591 Memo surface mount kit

This Memo surface mount kit allows bolting down Lappset Memo to the surface designed when drilling and/or milling in the floor is possible. This kit includes 7 installation plates and anchors, suitable for indoor use only and intended to be combined with wet pour. Protective tubes Ø 40mm are provided to connect the anchors underground to conduct the cables. It is a plug-and-play installation.

290592 Memo frame mount

This Memo frame mount kit allows installing Lappset Memo just below or on the surface when deep mount or drilling in the surface is not possible. It enables the installation to be completed in one day, overcoming the need poured concrete on site. This kit includes a steel 'Spider Frame' to position 150-250 mm underground with flanges to install Memo on top. Cables can efficiently be conducted through the metal frame. It is a plug-and-play installation.

Installation options Memo

290593

Memo exhibition mount kit

The Memo Exhibition mount temporarily installs Lappset Memo for exhibitions and trade shows indoors or outdoors. Multiple options are available. Please ask us about the possibilities.

Choose an installation type that fits your situation best. Lappset Memo can be installed in various situations, from outdoors in grassy, sandy, rocky, or tiled or concrete surfaces to indoor areas. Available standard options are:

- Deep mount
- Surface mount
- Frame mount
- Exhibition mount

Do you prefer another installation type? No worries; we are happy to provide you with a custom mount installation solution that best suits your location.

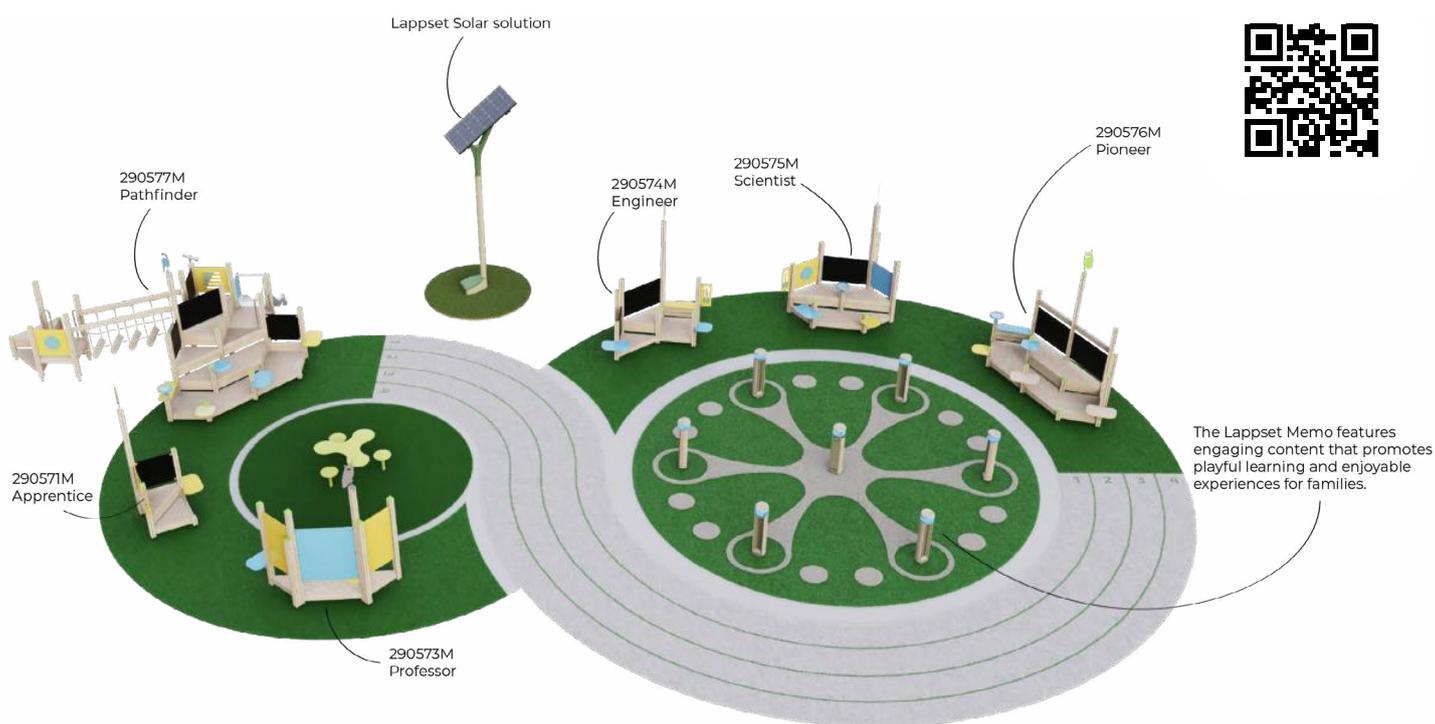

Lappset Outdoor Classroom

The Outdoor Classroom is designed to support educators and schools who want to integrate the Lappset Memo into their lessons. It includes a comprehensive lesson planner with over 200 pages, making it easy to find the resources you need. The planner provides clear instructions, lessons, worksheets, and inspiration while highlighting the educational value of every game and activity.

The design reflects our commitment to lifelong learning, with an infinity symbol inspiring the layout. It seamlessly combines an active zone centered around the Lappset Memo with a modular classroom area, supporting the preparation, engagement, reflection, and assessment of Memo-based lessons. This multi-zoned layout facilitates the integration of Memo into everyday educational practises. A connecting running track adds functionality and serves as a symbol of the continuous pursuit of knowledge.

Lappset Outdoor Classroom elements

290570M Student

A charming and compact wooden unit designed for individual or small group seating. The small platforms allow note-taking or doodling, encouraging interactive learning in an intimate setting. A small play panel with numbers helps communication and enhances play.

290571M Apprentice

This smaller unit provides a comfortable seating option for young learners on two levels. It features a built-in blackboard for creative expression and interactive discussions, fostering a collaborative environment for small groups. The Clock Play and small abacus panels help with communication and allow play.

290572M Teacher

A charming and compact wooden unit designed for individual or small group learning. The small platform allows note-taking or doodling, encouraging interactive learning in an intimate setting. The blackboard panel helps with communication and encourages creativity. With the larger blackboard, it is the most suitable for the teacher of the class.

290573M Professor

A charming wooden unit designed for small group learning. The small platforms allow note-taking or doodling, encouraging interactive learning in an intimate setting. The blackboard panels help with communication and encourage creative activities.

290574M Engineer

This medium-sized unit provides comfortable seating on two levels for young learners. The small platforms allow note-taking or doodling, encouraging interactive learning in an intimate setting. It features a built-in blackboards for creative expression and interactive discussions, fostering a collaborative environment for small groups. The small abacus panel helps with communication and allows play.

All Lappset Interactive play systems come with a standard pack, but the Carefree pack adds three more warranty years to electronic parts for a worry-free experience.

Optimized play spaces with fencing & boarding for seamless gameplay

As with any play and sports area, the proper location and surface are essential for success. For the Lappset Sutú, likewise, adding a boarding fence is necessary because you want to keep fast gameplay to overcome retrieving the ball at every missed shot. Therefore, our fence and boarding systems are designed so that all components are flush with the Sutú. The ball returns the way you expect it to return because there are no overhead structural parts for the ball to bounce off.

In addition, the low boarding is wide at the top, so you can sit on it when you take a break from playing a game. On the Plaza variants, the corners of the field are angled 45 degrees to stimulate fast and active gameplay, as the boarding can be tactically used for passes.

Installation options Sutú

290390 Sutú deep mount kit, concrete needed

This Sutú deep mount Kit provides seven deep mount ground anchors to install Sutú. This is the most common Sutú installation type used with concrete poured on-site.

290391 Sutú surface mount kit

This Sutú surface mount kit allows bolting down Lappset Sutú to the surface.

290392 Sutú exhibition mount kit

The Sutú Exhibition mount kit provides two large and three small metal plates for temporary installation on a hard and flat exhibition surface.

Choose an installation type that fits your situation best. Lappset Sutú can be installed in various situations, from outdoors in grassy, sandy, rocky, or tiled or concrete surfaces to indoor areas. Available standard options are:

- Deep mount
- Surface mount
- Exhibition mount

Do you prefer another installation type? No worries; we are happy to provide you with a custom mount installation solution that best suits your location.

Installation options HPL/Grid low boarding (Metal)

290395

HPL/Grid boarding deep mount kit

This deep mount kit for the HPL/Grid boarding allows the deep mount of the boarding and fence. The posts are extended for deep mount used with concrete poured on-site.

290396

HPL/Grid boarding surface mount kit

This surface mount kit for the HPL/Grid boarding allows the boarding to be mounted on the surface. The posts are finished with a flange for installation with anchors suitable for surface mount.

Installation options HPL/Grid high fence (Metal)

290397

HPL/Grid high fence deepmount kit

This deep mount kit for the HPL/Grid boarding fence allows the fence to be mounted deep. The posts are extended for deep mount used with concrete poured on-site.

The lower HPL/Grid boarding fence and the wooden Ace Arena fences and boardings are available in surface mount and deep mount. The HPL/Grid high fence is only available in deep mount.

Do you prefer another installation type? No worries; we are happy to provide you with a custom mount installation solution that best suits your location.

Its compact size and sloping corners create an environment for continuous ball contact and active involvement.

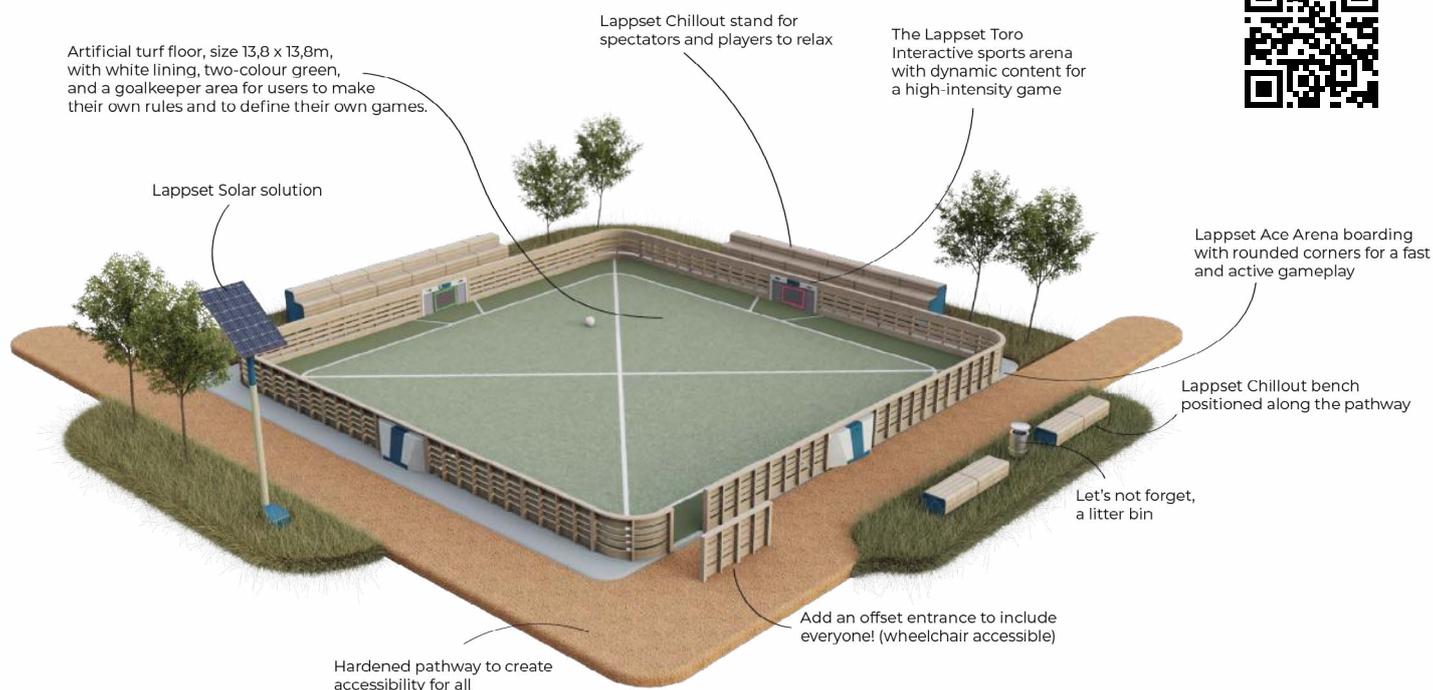

Lappset Toro Interactive sports arena

Why settle for a traditional rectangular sports arena with just two goals? Meet Toro, the interactive sports arena that breaks the mold. Toro's vibrant design, featuring sloping corners and four interactive goals per side, ensures constant ball contact and immersive gameplay. Developed with Olympic gold-medal coach Marc Lammers, Toro delivers fast-paced action, strategic play, and reactive challenges. Ideal for municipalities, sports facilities, schools, parks, resorts, and entertainment centres. Embrace the future of sports arenas with Toro—where technology, efficiency, and reliability come together for an unbeatable experience.

Carefree pack

290410

Lappset Toro Carefree pack

All Lappset Interactive play systems come with a standard pack, but the Carefree pack adds three more warranty years to electronic parts for a worry-free experience.

Optimized play spaces with boarding for seamless gameplay

The Toro is a fast-paced game, and adding the proper boarding are essential for active gameplay. Therefore, our boarding systems are designed such that all components are flush with the Toro goals. The ball returns the way you expect it to return because there are no overhead structural parts for the ball to bounce off. Besides, the corners are angled 45° to stimulate fast and active gameplay, as the boarding can be tactically used for passes. In addition, the boarding is designed as a seating and spectator element to chill on after a game and for cheering other players. Most bolts are hidden to raise the aesthetics of the boarding. Overall, it's a unique and clever modular design and is easy to install.

Lappset Toro - Markelo, The Netherlands

Teens, need a space where they can explore their identities, express their opinions, and enjoy their favourite music.

Lappset Fono Interactive DJ booth

Fono is the world's first outdoor DJ booth where you can play your own music by placing your phone on sound-amplifying pads. This transforms public spaces, skate parks, fitness zones, and resorts into fun hangout spots. Fono offers an interactive experience where you can DJ or dance with friends, catering to young music lovers. It plays the latest hits directly from your smartphone, allowing aspiring DJs to mix and edit like pros. With classic sound effects for added flair, Fono ensures anyone can showcase their musical identity.

Fono Momentum

Lappset's award-winning Fono Interactive DJ booth has merged with the newest Lappset park series, offering the world's unique bench series, Momentum. This innovative bench series creates a lively, inviting, and inspiring social space in parks and public areas.

With the Fono DJ table, anyone can play and mix their favourite music—for example, from their own mobile phone—just like a real DJ. The DJ table functions as an amplifier, and the rhythms emanating from the speakers entertain and get friends gathered on the Momentum benches dancing.

Fono and Momentum together form an inviting and versatile entertainment spot that suits all ages and various outdoor spaces.

Key benefits

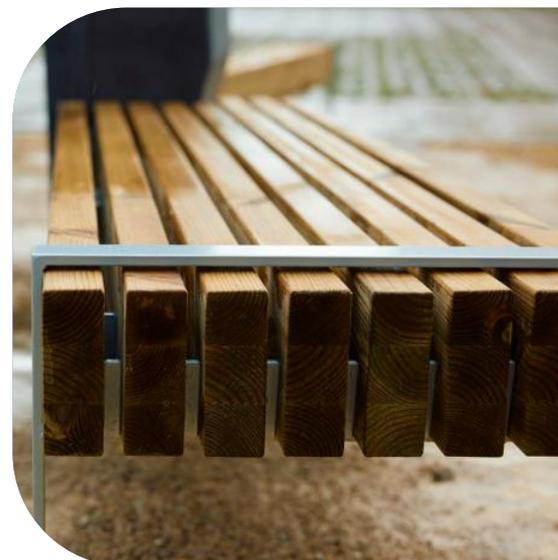

- World's innovative park benches: Park benches that bring a fresh aesthetic to public spaces.
- Community Hub: An inspiring meeting place designed to foster social interaction and spark creativity.
- Flexible Seating Solutions: Modular benches easily adapt to diverse spaces, offering versatile layouts for any setting.
- Built to Last: Engineered for durability, with both the benches and the DJ table crafted for long-term use in outdoor environments.

The Momentum bench series is a modular system that enables city planners, landscape architects, and designers to customize the product and layouts. The Lappset Fono Momentum bench additions are available in modular components to create the perfect musical park hangout.

The functional Fono offers a memorable outdoor music experience where users can mix their favourite music, while the Momentum benches provide a comfortable and flexible seating area.

It's Lappset's mission to strengthen everyone's heartbeat. With the introduction of the Momentum Park series, music is the key driver for bringing hearts together, creating new stories, relaxing, distressing, being outdoors, enjoying, falling in love, and ultimately making the most memorable moments together.

Lappset's Fono DJ concept has won the internationally prestigious Red Dot Award 2014 design prize.

Installation options Fono

290690

Fono mount kit

This Fono mount kit allows installing Lappset Fono anywhere. Whether mounted on an existing flat and hard surface or bolted to an on-site poured concrete slab, Fono can be installed everywhere.

Experience the freedom and sustainability of Lappset Solar—play longer, greener, and smarter.

Lappset Solar

The green energy solution is designed exclusively for powering Lappset Interactive playsets, eliminating the need for expensive and time-consuming mains power installations. Enjoy uninterrupted play all year round while reducing energy costs and your environmental footprint. With the built-in Eco Mode, our interactive playsets maximise energy efficiency, automatically switching off during standby and activating at the touch of a button—ideal for extending battery life during winter months.

Lappset Solar

Main product

290900 Lappset Solar

The Lappset Solar colour scheme matches the product colour that it is powering.

290901 Lappset Solar in marine grade

Providing extra durability for harsher environments.

Installation options Solar

290906 Solar deep mount kit, concrete needed

This Solar deep mount Kit provides an anchor plate for deep mounting the Solar post using the L-anchors. This is the most common Solar installation type used with concrete poured on-site.

290907 Solar surface mount kit

This Solar surface mount Kit provides an anchor plate for surface mounting the Solar post using chemical anchors (not included). This is a common Solar installation type.

Games & Software

290950

Custom game, start from scratch

Custom Game & Software Development started from scratch.

290951

Custom game, existing framework

Custom Game & Software Development based on an existing framework.

290955

Language pack

Recording and processing the games in your language.

Installation Kits

Interactives can be installed anywhere. For your convenience, several installation kits are available. Developing a custom-made installation kit is an option. Ask us for the possibilities.

Children playing the story game. Social-emotional skills development is a critically important protective factor for youth.

Tools

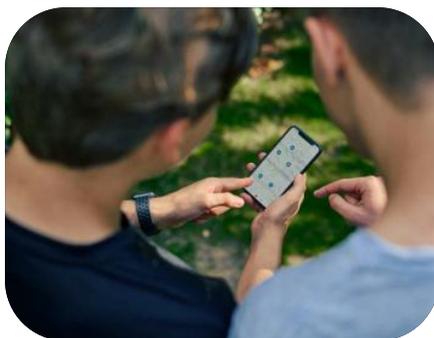

Lappset Dashboard

Product owner tool

Unlocking the potential of interactive play! Our Lappset Dashboard online tool provides you with full control over your playground equipment. Our creative and dedicated design team is also constantly crafting new games to keep things fresh - ensuring that anyone can enjoy this incredible experience!

Lappset Connect

User webapp unlocking games

Lappset Connect is a free (web)app available for the Lappset Interactive playground equipment where users can enjoy more play possibilities. Are you looking for an interactive product nearby? Do you want to learn how to play a game? Or are you looking to compete with your friends or join a fun activity? Lappset Connect offers many new experiences for your interactive playground equipment!

AR Designer Tool

Bring Our Products to Life

Stop imagining and start experiencing! Our interactive AR tools lets you see how our products will fit into any environment. This feature provides an interactive experience where you can use your phone to place 3D computer-generated renderings of our interactive devices in the real world!

Warranty

We promise our customers that they can enjoy our Lappset products for several years without worries. We offer a **ten-year warranty** period on the construction and a **two-year on the electronic parts**, which can be upgraded on initial purchase to five-year by a Carefree Pack.

The warranty also comes with:

- Lifelong online ticket support for all your questions
- Continuous firmware & software updates and lifelong expert advice, training, and service
- Our warranty does not cover vandalism or faulty use.

We have limited our warranty for harsh climates and close proximity to the sea.

Download the full warranty document on our website. [www.lappset.com](#)
