The timeless classic

Our successful Mikado series is inspired by the popular children's game of the same name, which is known around the world. Characteristic of this unique design are the inclined stainless steel posts, which form a colorful and playful pattern.

Our versatile playground equipment opens up countless design options and blends harmoniously into any environment. Be inspired by the creativity and fun of our Mikado series!

Each of our playground equipment is made from high-quality, durable materials that ensure safety and long-lasting fun. The bright colors and unusual shapes magically attract children and playfully develop their motor skills.

Whether in the park, in the school playground or in residential areas - the Mikado series brings joy and movement to every corner.

Experience how children's hearts beat faster and playgrounds are transformed into true worlds of adventure.

THIS IS WHAT SETS US APART

ALL-IN-ONE

Sustainability

- ✓ Heating with wood waste
- ✓ Energy by solar panels
- ✓ Solar charging station & e-mobility

In-house Creative Atelier
